ONE
SIZE

Comfort and breathability **also in one single size.**
One size fits any circumference.

Elbow support OST273

- Anatomical design for a better fit to the joint area.
- Featuring open pores to maximise ventilation in the area.

Indications:
Lateral epicondylitis (tennis elbow) and medial epicondylitis (golfer's elbow).

Epicondylitis strap OST272

- Foam pad that exerts pressure on the epicondyle to relieve pain.

- Wraparound fastening for easy individualised adjustment.

Indications:
Lateral epicondylitis (tennis elbow) and medial epicondylitis (golfer's elbow).

Wraparound wrist support OST265

- Featuring wraparound fastening that enables fast and easy fitting.

Indications:
Osteoarthritis, arthritis, tendinitis, bursitis, sprains and minor injuries.

Wrist and thumb support OST264

- Flexible design that stabilises the thumb and enables the functionality of the hand to be maintained, relieving pain.

Indications:
Rhizarthrosis, arthritis, tendinitis, bursitis, sprains and minor injuries.

Patellar strap OST232

- Silicone pad that exerts pressure on the patellar tendon to relieve pain.

Indications:
Osgood-Schlatter disease, chondromalacia patella, patellar tendon tendinitis, sporting activities involving forced extension of the knee.

Calf support OST220

- Anatomical design that ensures a snug fit to the calf muscle, providing greater compression and support.

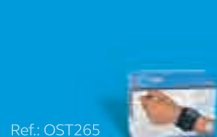

Indications:
Calf muscle strains, post injury.

Ref.: OST220

Knee support OST218

- Featuring a triangular anatomical patellar opening.
- Comfortable interior foam pad.
- Open popliteal area for greater freedom of movement.
- Medio-lateral stabilisers.

Indications:
Joint pain, bursitis, tendinitis, arthritis, osteoarthritis, patellar injuries, lateral knee ligament injuries, Osgood-Schlatter disease, chondromalacia patella, patellar subluxation, post injury, post-surgical treatment.

Ref.: OST218

Ankle brace OST212

- Figure of «8» strapping for greater and more effective containment.
- Open heel to enable joint movement.

Indications:
Minor sprains, tendinitis and prevention of sprains in patients with prior history.

Ref.: OST212

Thigh support OST247

- Featuring an anatomical design that provides high compression and support.
- Interior silicone strip to prevent slippage.

Indications:
Quadricep muscle strains, post injury.

Ref.: OST247
